

Please do not cancel K-Love. It is the only radio station that is "safe" to listen to with my child in the car and they give free advertising to my church for all functions & events that we offer to the community. K-Love is a huge asset to the Omaha metro area - they provide positive, uplifting music without commercials and no offensive language or jokes. It is refreshing to have actually have a station worth listening to - that provides community support @ our events, free advertising of our events and information that affects our community via news, weather, etc.

Sincerely,  
Merritt Pike
